

## DANGER DISAPPEARS.

### Chiefs Holding Council With Gen. Miles.

### SIOUX TO SURRENDER ARMS.

### The Cold Continues. And Parnell Steps Down.

### Pugilists Not to be Molested at New Orleans.

### Notable Wedding.

WASHINGTON, Jan. 14.—One of the most notable weddings from a social point of view that has taken place in Washington since that of Nellie Grant at the White House, was celebrated at St. Mathews Church to-day. The bridegroom was Miss Florence Audenreid, daughter of the late Colonel Audenreid of the army, and Count De La Forest of Paris, attaché of the French Legation in this city. The bride was given away by Blaine, Secretary of State. The invited spectators included practically everybody of distinction in social life at Washington. The church was beautifully decorated throughout its whole interior with a profusion of flowers and tropical plants and vines. The ceremony was performed by Arch-bishop Corrigan, father of the bride, assisted by Dr. Chappelle. The bride was dressed in a Paris gown of silver brocade. The Count was dressed in his diplomatic uniform.

### Arizona News.

TUCSON, Jan. 14.—Juan Castillo, one of the convicts who broke jail on November 30th, was captured last evening when leaving Gila Bend, by officer Perrin. He was well armed and resisted arrest and was shot through the leg and will probably die.

Deputy Marshal Porter arrived this morning with Modoc William and Stuart Mott, Carlisle school Indians arrested at the San Carlos agency for forging the name of the commanding officer, Captain Bullis, to two United States Treasury notes for small sums. Warrants are out for the arrest of other Indians at the agency on the same charge.

### Cold Continues.

BERLIN, Jan. 14.—The cold weather is causing much misery here. There are over 62,000 people out of work and must remain so until the weather moderates.

It is announced that Prof. Koch will publish to-morrow the ingredients which enter into the composition of his lymph. It is ascertained from authentic sources that it is a product of a chemical process in the body, and it probably belongs to a group of albuminous compounds.

### Chiefs Talking.

PINE RIDGE, Jan. 14.—This morning Little Wound, Little Hawk, Crow Mow and Old Calico came in from the hostiles and are now at 1:30 having a talk with General Miles. Other chiefs are expected. Colonel Corbin announces the chiefs have assented to surrender their arms and that the latter will probably be brought in to-day or to-morrow and be tagged.

### A Syndicate.

SAN FRANCISCO, Jan. 14.—The report that a syndicate of New York capitalists has taken charge of the Son Improvement Co.'s entire affairs, and that the work stopped by the action of the creditors will be at once resumed; that the steamers will be put on and discharged miners also put to work, was confirmed by General Manager Howard of the Oregon Company to-day.

### New York Stocks.

NEW YORK, Jan. 14.—The stock market opened with fractional gains. Sugar was up one per cent., Northern Pacific preferred seven-eighths and Missouri Pacific three-fourths. After 11 o'clock prices showed considerable weakness, though losses were slight. At noon the market was fairly active and firm at slight changes from the opening.

### Pugilists Unmolested.

NEW ORLEANS, La., Jan. 14.—Nothing new in the way of the fight. Attorney General Rogers said privately that the State will not interfere and that the pugilists will not be molested. A detail of police will be present at the Ringade and if the municipal ordinance is not violated, the fight will surely take place.

### News From China.

SAN FRANCISCO, Jan. 14.—The steamship Oceanic arrived to-day from China and Japan via Honolulu. On December 8th a farewell dinner was given at the Grand Hotel in Yokohama in honor of C. R. Geathouse, formerly United States Consul-General to Japan, prior to his departure for Corea, where he will act as adviser to the King. The banquet was attended by United States Minister Swift, British, Spanish and Swiss Consuls, several Japanese dignitaries, and about sixty members of the foreign community of Yokohama. He left on the following day for Seoul. G. H. Seidmore remains as acting Consul-General.

A sharp shock of earthquake, doing no damage, however, was felt at Tokyo, December 11th.

The British Steamer Namoa was attacked by pirates December 8th, about 45 miles from Hong Kong. The pirates were 85 in number and asked to be taken aboard as passengers. While the officers were at lunch they were attacked and Captain Peacock and the quartermaster of the vessel were shot and killed, as was also Captain Peterson, the lighthouse keeper at the "Lamocks," who was on board. After getting about \$30,000 from the vessel and its 200 Chinese and 6 European passengers, the pirates ran the steamer in about five miles from shore and signaled for their partners. Six large junks put out and received the booty, after which the pirates decamped. The steamer, which had all its boats smashed and was otherwise damaged, was taken back to Hong Kong by the chief officer.

The United States steamship Mohican was still at Honolulu when the Oceanic left, and several desertions from the vessel have been reported.

### Baseball Row.

NEW YORK, Jan. 14.—The conference committee of the League and American Association went into session this morning. The principal bone of contention is the question of allowing the American Association Club of Boston a franchise. A majority will report in favor of granting the Boston American Association a franchise. From present appearances there can be no settlement of the difficulty for two or three days. Injunction papers were served on Chris Von Ahe of St. Louis and President Parsons of the Louisville Clubs.

### Bland's Bill Held.

WASHINGTON, Jan. 14.—Bland's bill for the free coinage of silver was the first business at hand when the regular meeting of the House Committee on Coinage, Weights and Measures convened to-day. The committee, at Bland's suggestion, postponed it until next Wednesday. There is a disposition among the members of the committee to defer action in the matter until the Senate bill is laid before it as a basis of operation.

### Spoils and Bobbins Trust.

BOSTON, Jan. 14.—The Boston Post says: The principal manufactures of spoils, bobbins and shuttles in this country are interested in a consolidation scheme, and have had men in England who have been successful in interesting British capital in the proposed trust, and the formation of a syndicate with \$5,000,000 capital to purchase the business.

### Danger Disappearing.

OMAHA, Jan. 14.—On the assurance of General Miles, no more danger to settlers is anticipated, and four companies of militia stationed on the frontier were ordered home to-day. There are still thirteen companies in the field, but they will be ordered home by the end of the week unless more trouble occurs.

### A Strike Threatened.

CHICAGO, Jan. 14.—Chief Thurston of the Brotherhood of Railway Telegraphers of the United States says all the operators employed by the Chicago, Milwaukee & St. Paul Railroad will strike Friday morning. General Manager Earling of the St. Paul road, however, says he does not anticipate a strike.

### The World's Fair.

WASHINGTON, Jan. 14.—The sub-committee of the World's Fair Committee agreed to-day upon a report which it will recommend, and it will probably be presented to the House in a few days. The report favors more careful expenditure of money, the reduction of salaries and of employees.

### County Clerk in Jail.

LITTLE ROCK (Ark.) Jan. 14.—J. C. Massey, Clerk of Conway county, was committed to jail for contempt of court in refusing to produce the ballot box used in the congressional elections November last. Application will be made to the United States Supreme Court for a writ of habeas corpus.

## INGALLS ELOQUENT.

### Favors Free Coinage in a Ringing Speech.

### THE DEBATE NOW LIMITED

### Senator Stanford Succeeds In Re-election

### The Arkansas Treasurer Makes Good all Losses.

### Congressional.

WASHINGTON, Jan. 13.—In the Senate the Financial bill was taken up immediately after the reading of the journal, and Ingalls addressed the Senate, beginning his speech with a bitter denunciation of the independent in politics.

He said there were two pretentious evils which menaced the safety if they did not endanger the existence of the Republic. The first was ignorant, debased, degraded, spurious suffrage, contaminated by sewage of decayed nations in suffrage intimidated and superadded in the South; suffrage impure, corrupt, apathetic and indifferent in the great cities of the North; so that it was doubtful to his mind whether or not in half a century there has been a Presidential election in this country that expressed the deliberate and intelligent judgment of the whole body of the American people. The Election bill intended to deal with one part of the great evil to which he alluded, but it was an imperfect, partial and incomplete remedy. There could be no safety and no stable and permanent peace in this country and under this government until it was just as safe for a black Republican to vote in Mississippi as it was for a white Democrat to vote in Kansas.

The second evil to which he had alluded was the tyranny of combined, concentrated, centralized, conscienceless and incorporated capital, and the people are considering that great problem. At the beginning of the second century, American people had become profoundly convinced that the ballot was not a panacea for the evils of society; that it cannot be abolished, however, nor diminished without injustice; they had discovered that political equality did not result in social fraternity; that under democracy the concentration of greater power in fewer hands was more possible than under monarchy. George Washington, the first President of the Republic, had, when he died in 1799, the largest private fortune in United States. All his belongings reached the sum of \$200,000 and \$300,000. That was less than a century ago. Since that time the growth of wealth and number of wealthy men in the United States had no precedent in building nations. The people of the United States now form one-third of the world's population, one-fourth its manufacturing, one-fifth its farming, and possessed of one-sixth of its accumulated wealth.

He had read in the morning papers Sherman's speech, a considerable part of which was devoted to the defense of the millionaires. People had awakened to a conception of the fact that the bulk of the property in this country is passing into the hands of those whom the Senator from Ohio called by euphemism the speculators of the country. These men had no policies but plunder, and no principle but spoliation of the human race. It was no wonder that the laboring and agricultural classes of this country had at last awakened, and speculators must take warning.

Referring to the late election, he said it was neither a Republican defeat nor a Democratic victory. It was a great uprising independent of and superior to both political parties; it was a peaceful revolution.

He attributed the depression of the country in a great measure to the demoralization act of 1873. He had not the slightest doubt that the great majority of the people, irrespective of party, are in favor of the free coinage of silver, and had been for the past fifteen years. Warnings and admonitions were plenty in this debate, but he would say to those who are arraying themselves against the deliberately expressed judgment of the American people, there would come a time when the people would not be trifled with on this subject. The political power of the nation is transferred from the circumference to the center, and the people of that center are unanimously demanding the free coinage of silver. It was for that reason he should cordially support the

### amendment of the Senator from Nevada.

Ingalls spoke for a little over two hours, and as he took his seat he was heartily applauded.

Jones of Nevada then took the floor in favor of free coinage. When he had concluded the Vice-President announced debate closed, and the discussion of amendments under the ten minute rule began.

### HOUSE.

The House went into Committee of the Whole on the army appropriation bill.

After disposing of a few amendments of minor importance the committee rose and the bill passed. The House then went into Committee of the Whole on the District of Columbia Appropriation bill.

### California Legislature.

SACRAMENTO, Jan. 14.—Oström introduced a resolution that when the Senate adjourns on Friday it be to Monday at 2 o'clock, as many of the Senators desired to go the citrus fair at Marysville. The resolution was adopted. The Committee on Public Buildings reported favorably on the resolution prohibiting the sale of liquor in all rooms under the control of the Senate. The only room this covers is the Sergeant-at-Arms' room. The first bill to pass both houses is one granting the Governor a stenographer at \$1,600 a year.

After considerable discussion the resolution in relation to adjourning until Monday was adopted. At 12 o'clock the Senate joined the Assembly for the purpose of jointly canvassing the vote for United States Senator. After the formalities had been gone through with, Senator Stanford was declared elected.

### Barbed Wire Comes High.

CHICAGO, Jan. 14.—One of the manufacturers at the barbed-wire meeting says the object of the meeting was to try to arrange for the purchase of the Washburn-Moen patents in order to end costly litigation. It is understood a committee will be appointed with power to offer one-quarter million of dollars. Washburn and Moen are said to ask half a million.

### Liquor License Reduced.

MERCED (Cal.), Jan. 14.—To-day the new Board of Supervisors reduced the liquor license to \$100 per year, payable in advance, and with a provision that such saloon-keeper give a bond of \$3,000 to keep an orderly house and not sell to minors. The adoption of the ordinance is creating considerable excitement.

### Arkansas Loses Nothing.

LITTLE ROCK (Ark.), Jan. 14.—State Treasurer Woodruff's bondsmen have decided to make good the shortage in the Treasurer's accounts, and he has turned over to them sufficient property to save them from any loss.

### Schooner Lost.

NEW ORLEANS, Jan. 14.—City of Dall is here from Puerto Cortez and brings news of the wrecking of a schooner between Bay Islands and the Cayman. Fourteen lives lost, including Captain Connell.

### Wants His Office.

LINCOLN (Nebr.), Jan. 14.—Governor Boyd this morning made a formal request on the Board of Public Lands and Buildings for the rooms now occupied by ex-Governor Thayer. The Board met but took no action.

### Oregon Legislature.

SALEM (Or.), Jan. 14.—The two branches of the Legislature met in joint session this morning. The oath of office was administered to Governor Penney elect, who then read his message.

### Fire in Montreal.

MONTREAL, Jan. 14.—A fire this morning burned the premises of the Dominion Tubular Lamp Company, the building of Timbault and Co., and several other properties.

### Another Embezzler.

WILMINGTON (Del.), Jan. 14.—W. V. Harper, agent of the National Life Insurance Company of Vermont, is under bonds for the embezzlement of \$60,000.

### Silver Purchases.

WASHINGTON, Jan. 14.—Of 918,000 ounces of silver offered for sale to-day, 455,000 were purchased at prices ranging from \$1.0585 to \$1.062.

### Parnell Hits Down.

LONDON, Jan. 14.—The Star says Parnell has abandoned all idea of re-nouncing the leadership of the Irish Parliamentary party.

### Earthquake in Canada.

BROCKVILLE (Ont.), Jan. 14.—A sharp shock of earthquake was felt here early this morning.

### A Railroad in Trouble.

KNOXVILLE, TENN., Jan. 13.—A bill was filed in the Federal Courts here asking that a receiver be appointed for the Marietta and North Georgia Railroad. The bill is filed by the Central Trust Company of New York and alleges that the company owes it \$3,000,000.

### Quarry Accident.

TEBY (N. Y.), Jan. 14.—At Split Rock quarry, on Lake Champlain, a runaway car on a tramway crashed into a group of persons, killing two sons of Superintendent Robertson, the engineer and one quarryman, and fatally injuring two quarrymen.

### Dadewiski Not Caught.

PARIS, Jan. 14.—The Figaro announces that the man arrested at Olot, Spain, is not Dadewiski, the alleged murderer of Selivostoff, but is an Alsatian named Hein, formerly on the editorial staff of the Temps in this city.

### Guilty of Heresy.

PITTSBURGH, Jan. 14.—Rev. Milligan, on trial for heresy, was found guilty this afternoon by the Pittsburgh Presbytery of the Reformed Presbyterian Church. An appeal to the general synod will be made.

### Protection in France.

PARIS, Jan. 14.—The committee of the Chamber of Deputies has adopted a proposition to impose a duty of 14 to 12 francs upon land, according to quality, and to admit suet free.

### TELEGRAPHIC BREVITIES.

The steamer Anchoria arrived at New York to-day from Glasgow. Ritchie Brothers, brokers, in Philadelphia suspended this afternoon. The fourth session of the Wisconsin legislature was organized to-day.

It is reported that Senator Hearst rested well last night; there has been no change in his condition since yesterday.

### IS YOUR WIFE WELL?

## JOTTINGS.

The girl who bought a new sewing machine said she had got a new fell. C. J. Brookins keeps 'em all the time. This is a new who 'sells to 'sells' his friends should only select those who have the best things. They buy them from C. A. Thurston.

A woman was nearly killed the other day, while trying to make jelly of electrical currents. A bracelet from Richard Herz would have restored her.

I do not find the times dull as I keep the choices, goods most needed by the people for their tables. Give me a call and be convinced. Thus sayeth E. C. Leadbetter.

The Emperor William, desiring to take a sleigh ride the other day, ordered a bed of snow to be laid for four miles from the Palace door, and ordered his beer of J. J. Becker.

In England they give their football players \$15 to \$20 a week regular salary, with \$1,000 bonus at the end of the season if their conduct has been creditable. The Riverside gives them good meals.

**Gave Them a Thorough Trial.**  
Hon. E. A. Moore, Member of Assembly, Richmond county, N. Y., writes: "I have two afflictions which sometimes make life a burden. One is dyspepsia, the other is rheumatism. I heard of Chamberlain's Pills, took one or two at night on an empty stomach, would cure rheumatic pains. I gave them a thorough trial for three weeks, taking one or two every night. To my delight, not only was I cured of rheumatism, but dyspepsia, constipation and biliousness. They did not interfere with my diet or business, and I really think them an incomparable blood purifier and cathartic."

"Is this the best?" Is the question often asked, when medicine is wanted. The following are a few of the medicines of known reliability, sold by Shoemaker & Co., druggist of this place. They have many other excellent medicines, but these are worthy of special mention:

**Chamberlain's Cough Remedy**, famous for its cure of severe colds and as a preventative for croup. Price 50 cents per bottle.

**Chamberlain's Pain Balm**, a general family liniment and especially valuable for rheumatism. Price 50 cents per bottle.

**Chamberlain's Colic, Cholera and Diarrhoea Remedy**, the most reliable known medicine for bowel complaints. It is especially prized by persons subject to colic. It has cured many cases of chronic diarrhoea. Price 25 and 50 cents per bottle.

**St. Patrick's Pills**, for disorders of the liver and bowels, a vigorous but gentle physic that cleanses and renovates the whole system. Price 25 cents per box.

**Chamberlain's Eye and Skin Ointment**. For itching, salt rheum, scald-head, eczema and chronic sore eyes. Price 25 cents.

**The New Discovery.**  
You have heard your friends and neighbors talking about it. You may yourself be one of the many who know from personal experience just what a good thing it is. If you have ever tried it, you are one of its staunch friends, because the wonderful thing about it, that when once given a trial, Dr. King's New Discovery ever after holds a place in the house. If you have never used it and should be afflicted with a cough, cold, or any throat, lung or chest trouble, secure a bottle at once and give it a fair trial. It is guaranteed every time, or money refunded. Trial bottle free at Wm. Finner's drug store.

he question has been asked, "In what respect are St. Patrick's Pills better than any other?" Try them. You will find that they produce a pleasanter cathartic effect, are more certain in their action, and that they not only physic but cleanse the whole system and regulate the liver and bowels. For sale at 25 cents per box by Shoemaker & Co.

**The First Step.**  
Perhaps you are run down, can't eat, can't sleep, can't think, can't do anything to your satisfaction, and you wonder what ails you. You should heed the warning, you are taking the first step into Nervous Prostration. You need a nerve tonic, and **Electric Balm** you will find the exact remedy for restoring your nervous system to its normal, healthy condition. Surprising results follow the use of this great nerve tonic and restorative. Your appetite, good digestion, is restored and the Liver and Kidneys resume healthy action. Try a bottle. Price 50c, at Wm. Finner's Drug Store.

**A Progressive Merchant.**  
A. Nelson is progressive. He has recently laid in a very extensive stock of choice cutlery, consisting of knives of all kinds and dimensions, which he is selling at remarkably low prices. He also runs a free intelligence office, and gets most anybody a job who applies. Give him a call.

**An Old Friend.**  
That has been assisting the community for generations, has at last been happily settled. Cephaline, the greatest headache remedy is in, and trouble ceased. Your druggist has it.

Sick headache and a sensation of oppression and fullness in the head, are very commonly produced by indigestion; morbid dependency, irregularity and over sensibility of the nerves may be a source of cases be traced to the same cause. Dr. J. H. McLean's Liver and Kidney Balm and Pills will positively cure.

## CARSON CORRESPONDENCE.

A Gossipy Letter From the State Capital—Getting Ready for the Salaries.

CARSON, Jan. 13, 1891.

EDITOR GAZETTE: Expectancy, activity and a general condition akin to ecstatic exhilaration now imbues the Carsonites. Things are being brightened up, windows cleaned, sidewalks leveled up, knots chopped off, and in every way the Capital is presenting an appearance so much out of its ordinary line that the casual observer is impressed that he has struck a boom town, and naturally inquires what causes the commotion. He receives the answer with a knowing smile and patronizing air, on the part of the informant, that the Legislature will meet on Monday, the 19th, and it is necessary to fix up a little. Already the pert and smiling aspirant, for a legislative position has begun to make his appearance, and can be seen tripping gaily back and forth on Carson street, under a new suit of fashionable clothes and an overcoat, that he has no doubt stood off his local merchant for, in order to make a good appearance at his canvass. Again you will see at long intervals a legislator, holding tight to his grip, and bearing a hunted and scared look as he steps off on the platform and begins his journey down the main street, in search of a place to domicile himself for the next two months.

Harvest is approaching, and the arrival for the next few days will be the reapers, gleaners and the smallest birds that follow in the wake, picking up the stray kernels that are dropped. As yet there can be no speculation as to what legislation will take place, but there is the usual talk of retrenchment, reform, reduction of State expenses, etc.; one of the most important of which is the serious consideration of debarring the lady copying clerks and a page or two from the chance of acquiring a few dollars of the legislative appropriation. The proposition of cutting of the \$30 per member, for stationery, that he draws and never spends, or the mileage that he always draws, have not been considered. These matters, of course, are so small that it is hardly worth quibbling about. There is talk that the Legislature will not doubt be able to do much, which it was intended by the promoters of the Constitutional Convention to do. How this will pan out we shall see, but from past experience it is easy to canvass the results.

I spoke to a new State officer a day or two since regarding certain duties connected with his office, and he replied, concerning the query, "that it would depend very much whether the Legislature appropriated enough money to carry it out or not." It is strange how quick the new ones catch on to the system.

The new officers are working along smoothly, and by the time the Legislature convenes, will be working up in the collar, and will have learned all the little innocent dodges of the old.

The gambling fraternity are polishing up their tools, and will be ready to divide the honors and salaries of the members.

## SOCIAL EVENTS.

Are being planned, and Carson will have the usual church and charity fairs, lunches, and efforts at select club parties that come to the top every couple of years, and the remainder of the time sink into quiet and dignified oblivion.

The winter so far at Carson has been beautiful, and no complaints can be entered against the climate, and this gives the Carsonites much joy, believing that the climatic conditions will assist materially in adding life, business and prosperity to the other benefits that are now and are about to take place.

## LEGISLATORS ARRIVING.

**Clothed With Dignity and Big Overcoats.**  
The Legislators are gathering in at Carson, and are passing Reno every day with all the pomp and paraphernalia of legislative glory. Members of the first and second houses, and some of the third, are advancing with caution like the Sioux, and usually stop a day in Reno to get the lay of the land and get on to the drit of public opinion. The Assemblymen are a little shy, while the old Romans, wrapped in judicial silence and big overcoats, with their senatorial (Saratoga) bear themselves with a jaunty air of dignified courtesy. But the Assemblymen will get even a little later on, and when they begin to feel a little confidence in their superior numbers will, as usual, set down on the upper house just to show their strength. It promises to be a very interesting session.

## TIT FOR TAT.

**A Dumb Brute That Resented an Insult.**  
George Styles found a horse last night hitched at a post in front of the Union saloon at the corner of Virginia and Second streets standing on the sidewalk. George walked up and kicked the animal in the place where the trooper is usually put, but no sooner had his foot landed than the horse resented the insult by kicking him with both feet in the chest, knocking him out in the first round.

The horse then quietly left the sidewalk, as much as to say "come out in the street if you want any more of that kind of fun." It is needless to say that Styles had fun enough, and was satisfied to call it quits.

## How Would it Work.

Cannot the citizens of this State—the tax-payers—organize a ghost dance in the Capital square during the session of the Legislature and in that way get some wholesome laws passed and State expenses cut down. It would be pretty cold work and the Gazette don't know as anything could be accomplished by it. Still it might have the effect of keeping the lobby in its place and stimulating the honor of the members.

## Acknowledged.

The GAZETTE acknowledges the receipt of an invitation to attend the installation of officers of Truckee Lodge No. 14, B. P. O. Elks, at the Elks Lodge, Carson City, Nevada, on Thursday evening.

## STILL STAYING.

Another Chapter Added to the Romantic History of Thomas Fitch.

The east-bound overland train on Monday carried Hon. Thomas Fitch and wife, who are en route to Denver, where Mr. Fitch is to speak on "free coinage" before the Board of Trade. Mr. Fitch has had a turn of the wheel and is a partner in a property which is likely to make him a second Monte Christo. He and his associates have found immense treasures on an island in the Pacific, nine miles from the Mexican coast, which promises to show up the greatest deposit of gold ever known.

## THE ISLAND.

Is twenty miles long and from three to ten miles wide. It rises to a height of 4,000 feet and is a broken mass of rocks pushed up from the ocean by volcanic action, so rough that access to parts of it is next to impossible, and a trip across it could not be made by anything but a bird. There is no water except in some mineral springs. Rising from the sea is a diorite wall which is cleft in one place so as to form a passage through and reveal a second wall 400 feet beyond. Between these two the whole body of soft broken material will show a color whenever tried, and pockets of great richness are found. From one which has not yet been opened further which to take out 2,500 tons of ore off the top, \$70 a ton was cleared, giving the company \$175,000, which is being spent in laying out roads, running four tunnels, building ships, boarding houses, etc., and in preparatory work generally.

## A STRANGE DISCOVERY.

Was made in the shape of a bed of white sand which ran along the top of the mountain in a level streak. It proves to be a quartz ledge which has been pulverized by the intense heat until it is as fine as if run through a battery of stamps. It assays from one to fifty ounces of gold, worth nearly \$20 an ounce. It is three feet thick on the surface, but dips downward soon and widens to eight feet. Scattered through it are specimens of quartz which did not melt and which are not "lousy" with gold, but are plated with it. One sample weighed 80 pounds and it had at least \$500 worth of gold on its outside, to say nothing of what is no doubt scattered through it. The company have an exclusive franchise to mine for ten years on the island and talk of a 200 stamp mill. In the meantime the company have to ship ore away to be worked and have sent a big lot to Pueblo, Colorado. If Reno had reduction works it could get some work from it if the railroad rates could be lowered. By the way, Mr. Fitch won the *Excaminer's* prize on the population of Reno. He put it in at 3,867, which was within four of it.

## VALUABLE OPINIONS.

**Calculated to Give the Legislature some Idea of What is Best To Do.**

THE GAZETTE files the following additional opinions to its query as to what law would be most beneficial for the incoming Legislature to pass:

**EXECUTIVE DEPARTMENT.**  
STATE OF NEVADA,  
CARSON CITY, Jan. 13, 1891.

**EDITOR GAZETTE:** In reply to yours of the 10th inst. will say that the one thing which is now working the greatest injury to the State is the under valuation of property, which causes a high rate of taxation. Therefore the most beneficial law would be one compelling a just and equitable valuation of property for the purpose of taxation.

Yours respectfully,  
R. K. COLCORD.

**CONTROLLER'S DEPARTMENT.**  
STATE OF NEVADA,  
CARSON CITY, Jan. 13, 1891.

**EDITOR GAZETTE:** In reply to yours of the 10th inst. will say that, in my estimation, one of the most beneficial laws for the State of Nevada to be passed by the incoming Legislature would be the establishment of a State Board of Equalization.

Yours truly,  
R. L. HORTON.

**OFFICE OF SECRETARY OF STATE.**  
CARSON CITY, Jan. 13.

**EDITOR GAZETTE:** A law that will equalize the assessment of taxes so that property may be taxed at its net value in all parts of the State.

O. H. GREY.

**OFFICE OF SURVEYOR GENERAL.**  
CARSON CITY, Jan. 13.

**EDITOR GAZETTE:** A good revenue law.

J. E. JONES.

**RENO, JAN. 13.**  
**EDITOR GAZETTE:** For the Legislature to provide for a Constitutional Convention.

R. S. OSBURN.

## WHO IS RIGHT?

**A Wide Difference of Opinion Between Nevada's Senators.**  
Senator Jones writes to a friend that the bill for free coinage has a very good chance of passing Congress at the present session.

While Senator Stewart writes to a friend in this city "that the prospects for the passage of a free coinage bill at this session are not good." The Senator says the time occupied by the election bill has injured the prospects of the passage of any important measure, except, perhaps, the appropriation bill. Which one of our Senators is right in their prognostications?

**San Francisco Meat Market.**  
The following are the rates for whole carcasses from slaughterers to dealers in San Francisco:

BEEF—First quality, 6c; second quality 5c; third quality, 4c; 8c p. b.  
VEAL—Quotable at 5c; 6c for large and 6c for small.  
MUTTON—Quotable at 8c p. b.  
LAMB—Spring, 15c; Fall, 10c p. b.  
PORK—Live Hogs, on foot, grain fed, heavy, 10c; light, 9c; dressed, 8c; 7c p. b.

## Notice.

All parties indebted to the late firm of Shoemaker & Ruth will please call and settle their accounts without delay—as the business of said firm must be closed.

Highest of all in Leavening Power.—U. S. Gov't Report, Aug. 17, 1889.

# Royal Baking Powder

ABSOLUTELY PURE

## PERSONALS.

O. Lonkey of Verdi is in town to-day.

Tom Short of Ruby Valley is in town to-day.

J. M. Fulton returned from San Francisco this morning.

James T. Davis of the Mound House spent yesterday in Reno.

E. C. McClellan of Elko came in from the east last night.

Matt Haley of Susanville went to San Francisco last night.

L. Brooks, the cattle buyer, came up from the City this morning.

Harry Rolf of Virginia City was a passenger for San Francisco last night.

W. E. Sharon arrived in Reno, last night, and went on to San Francisco.

Jim Miller of Honey Lake, passed through Reno for San Francisco last night.

Aaron Wiggat came up from Sacramento this morning and went over to Carson.

Louis Bevier, formerly of Wadsworth, was married to Miss Isabella Down of Carson.

Among the arrivals from San Francisco this morning were Dr. Bishop and M. D. Foley.

Senator Kaiser of Churchill has arrived in Reno and will remain two days or more before going to Carson.

Dr. Patterson is in from the north. He is feeling a lot of cattle on the meadows, and will drive 200 head this way later on.

Senator G. S. Sawyer from Lincoln county came in last night to be in attendance at the convening of the Legislature and W. R. McFadden, Assemblyman from the same county favor of the Gazette office with a pleasant call to-day.

## BREVITIES.

**Local and General Intelligence.**  
The barometer is falling and the indications are good for a storm.

From two to three car loads of marble pass here daily for the Marble Works at Verdi.

Tom Short of Ruby Valley yesterday unloaded four cars of beef cattle here, which after feeding, were re-shipped to San Francisco.

Miss E. Lilian True who can teach anyone with a common school education for general work, to write from 85 to 100 words per minute short hand, is prepared to give lessons. See 50 cent column.

Most of the boys who fail to pass the physical examination for West Point or Annapolis are rejected because of defective vision. The tobacco heart, generally caused by smoking cigarettes, is also very common.

The sugar factory down at Lehi has its walls rising at a pretty rapid rate. The brick has reached over two-thirds the way up for the first story, and all the windows and door frames are in.

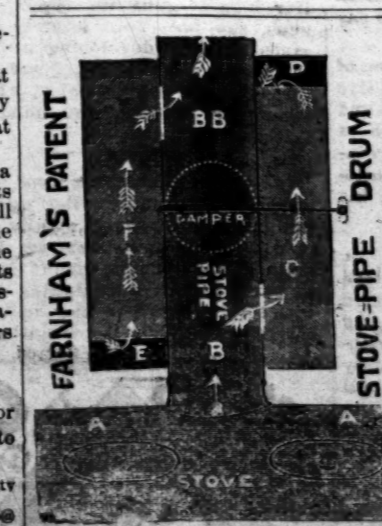

If good weather continues the building will be under roof in a few weeks.

It is unfortunate that publication should have been made of the fact that the sun is as large as thirteen hundred thousand earths. There will now be men who will want the sun. Buy your cigars of Marcus Fredrick, and you will be satisfied with the earth.

T. J. Cummins of College City, Colusa county, owns an extensive cattle range in Modoc county which extends over into Nevada. Upon this range a silver ledge has been discovered which is likely to prove a valuable bonanza. It crops out upon his land for a distance of eight miles, has been prospected at intervals all along, and found to be very rich.

**If You Have a Friend**  
About to visit some section of country where malarial disease, either in the form of chills and fever or bilious remittent is particularly rife, what would be about the best advice you could give him? We will tell you—to carry along, or procure on arriving, that potent medicinal safeguard, Hostetter's Stomach Bitters, known throughout malarial regions, here and in other countries, as the surest means of destroying the malarial scourge, and robbing it of its full destructive influence. Not only does it fortify the system by increasing its stamina, but overcomes irregularity of digestion, the liver and the bowels, congests the unfavorable effects of over-excitation, bodily and mental exposure in rough weather, or occupation too sedentary or laborous, loss of appetite or excessive nervousness. The functions of assimilations, bilious secretion and sleep have in it a most powerful and reliable auxiliary.

## NEW TO-DAY.

(The Arrows indicate the current of heat as it passes through the Drum)

**Address—HUME YERINGTON, Carson City, Nevada.**  
General Agent for Nevada, Utah, Idaho, Montana, North Dakota, South Dakota, Oregon and Washington.
